

The Topper Touch -
Quality plus...for our work wear customers!

The *Topper Touch* - Quality plus...for our work wear customers!

Over the years, Topper has built a reputation for quality, service and reliability by investing time and dedicated effort to understanding our customers' business. And we've done it one customer at a time. During more than 50 years in the textile rental business, we've had the opportunity to evaluate the performance of numerous uniforms in our commercial laundry. And now we've used that expertise to create a comprehensive line of cost-effective uniforms for customers who wish to purchase, rather than rent, uniforms for their staff. And our first priority is exceeding your quality expectations. That's the *Topper Touch*.

Over the years, we've seen first hand which fabrics are durable and launder well; we've heard from customers which uniform styles are comfortable, practical and popular with staff; and we've learned which manufacturers produce the quality we look for.

At Topper, we know that your uniforms have to work hard and look good. Uniforms are an important part of your company's individuality: they identify your employees and represent your corporate image. So we offer for sale only carefully selected uniforms from dependable manufacturers, and we ensure every detail meets our standards:

- Performance fabrics selected for durability and employee comfort
- Rugged construction features — like heavy stitching and pocket rivets — so our uniforms work hard
- Selection of styles and colours to complement your corporate image
- Range of sizes to suit your employees
- Custom labelling to identify your uniforms
- Customized features — your company name, logo or employees' names.

At Topper, we work with you to choose the uniforms that exactly meet your needs. And that's why the *Topper Touch* wins us more satisfied customers — one customer at a time.

Topper — for uniforms that work
