

March 17, 2020.

WE ARE HERE FOR YOU, AND WANT TO KEEP YOU INFORMED.

Since 1956 Topper Linen & Uniform has always been about serving our customers. Our community has now become a global village with our current health care crisis of COVID-19.

We have struggled to navigate this constantly shifting health crisis over the past week, weighing our responsibility to our many customers and loyal employee's. Premier Ford has declared a State of Emergency closing many business's, yet essential services will remain open. Topper is an essential service company, and we are hygienically clean.... [Keeping You Clean](#). We want to ensure our customers that any product you receive from us is processed under stringent conditions.

Our staff will continue to provide delivery as needed, and if you have soiled laundry for pick up, please inform us when we are able to pick up. It is essential to have all goods washed and clean. We will reduce your inventory as we pick up our products. We will work with each customer to maintain minimum service. We will remain open with some staff to ensure cleanliness.

In these difficult times we must all remain positive and keep calm. All of us will get through this crisis, and come out stronger than ever. We encourage you to take care of yourselves and each other in these uncertain times. Our thoughts go out to the many who have been so dramatically affected.

We look forward to welcoming you all back once this crisis is beyond us.

Respectfully

Tim Topornicki
President.
